

Autumn League 2024

From my perspective as organizer, I felt the Autumn League progressed well and completed with minimal fuss.

The main issue was with League Planner which was outside our control. Nevertheless, clubs struggled on and my input as administrator allowed alteration, changes and queries to be resolved quickly.

Apologies to Hightown as they were entered into a division outside their playing ability so withdrew. Champion and Aughton also withdrew for internal reasons.

Several queries were raised about clashes with cup competitions. The rules confirmed that at "24. All league matches have precedence over cup matches except for the cup finals."

I think the secret was proactivity in chasing results and dates for rearranged matches etc. Keep everyone on their toes and up to date is key.

Thanks to all team captains for your assistance. Just ask could clubs please make sure we have accurate contact details for each team as this makes it so much easier for us to manage.

Finally, apologies for any of my errors – we are all volunteers and do our best.

Cheers

Tim Carey
